Are your ads reaching those millions of women who work?

42% of American women now work.

Consider these facts about women who work*:

- -they watch less television -56 minutes for workers and one hour and forty minutes for housewives.
- -only one third of working women regularly read any one of the 19 "womens magazines".
- -households in which women work have 57% higher median income than households where the woman doesn't work.
- -the working woman spends more money on clothing (34% more) than the non working woman.
- -eight out of ten drive a car to work. 42% of the first 1,000,000 Mustangs sold were bought by women.
- -60% took a vacation away from home during the last year.

WHY NOT SET YOUR AD IN A WORKING SITUATION?

TUNJO-DOES HE MAKE
WISHES COME TRUE??

This is a Tunjo

It was believed by the Colombian Indians to have the power of making wishes come true. This design was taken from a **Tunjo** (the most powerful man) made of solid gold and was believed to have the double nature of spirit (with wings) and body (a scorpion). It may be seen in the Gold Museum in Bogota.

You could probably paint a picture of a **Tunjo** on a piece of plain paper, burlap or cloth, and hang it on your wall. Every morning when you rise, you could make a wish that business will get better.

Or You could be more positive and place an advertisement in the **CITY DIRECTORY.**
